A QUESTION OF STRENGTH.

It is gratifying to those who desire to see politics eliminated from the city government and party considerations give way to non-partisanship, to learn that the Committee of Seventy intends to rule Mr. Thomas C. Platt out in all the end of which Real Rapid Transit legislation passed for the city next year, and will "demonstrate its power" if that leader objects to being "turned

It is said that Mayor-elect Strong approves of the Committee's anti-Platt legislative programme, although he notifies the Seventy very distinctly that they must keep their hands off his apointments. They must not meddle with those.

AN INTERESTING CONVENTION.

The twenty-first annual meeting of the A NUT FOR M'KINLEY Women's Christian Temperance Union was held at Cleveland yesterday. Miss Frances Willard's address was a striking document and was received with many demonstrations of enthusiasm. It was certainly sufficiently advanced to suit the most extreme views.

Miss Willard denounces the modern exhibition of "living pictures," rejoices over the defeat of "the perjured Breckinridge" and the Tammany Tiger; favor the appointment of "matronly women" on the police force; advocates scientific cooking; hopes to see a union between the Temperance people and the Populists and demands to know in how many government buildings liquor is allowed

Who Will Get the Work and Who Will Get the Benefit of the Improvement

Will you kindly agitate the question in your valuable paper about giving the preference of employment on an rapid transit to citizens of New York City, via : A person applying for employment on the rapid transit must be a United States citizen and have resided one year in New York City prior to application for employment, and Tork City prior to application for employment, and a legal voier. We, as voiers, are responsible for the rapid transit becoming a law, and we desire to profit by it, and not let outside parties profit by our citizenship. It is only justice to ourselves that we ask for this protection. From what I can understand many men are now coming from the different States and citizen to obtain employment on the rapid transit. I believe that even those living in Brooklyn and adjoining towns also Jersey City or State of New Jersey, should be barred, as they will work in New York City and continue to live in the places named, City and continue to live in the places named, which will not belt our city and merchants. Italians and foreigners also should be barred, as they can obtain employment by taking out their first papers and save a sufficient amount of money before taking out their second papers to return to their native lands to live on profits which should rightfully belong to the citizens of New York. Ages and ages ago, Nature put up a big bluff n the south side of the Monongahela River near where it joins the Allegheny. Long after-wards man came that way, saw Nature's bluff and raised one of his own on the other bank. He called his Pittsburg. And it still stands. Pittsburg is a great manufacturing town, from and glass being its staples. So many of its people work in glass factories that they ought not to throw stones, but they sometimes do. In other days, Pittsburg earned the name of "the Emoky City." The smoke was so thick that nothing could be seen through it. Having their outside view thus shut of. Pittsburgers were driven to living much within themselves. The result was an abnormal development of the imaginative faculties, which exhibited itself in a marked manner through the weird productions of local newspaper correspondents. The Pitteburg "Take" thus became a recognised institution "Take" thus became a recognized institution among outside news editors. In recognition of the nervy fashion in which man had called her blug. Nature finally bestowed natural gas on the city as a substitute for soft cost, and although the Pitiaburg "toby" does its noblest towards keeping up the old almosphere, much of the smoky glory of the town is departed. about the letter-carriers' salary it would be well for him to obtain a little kindly light on the subletter-carriers are not asking Congreas for an increase because the policemen or receive \$1,200. The men in those departments deserve all they get, and more, but the are not nate from the funds of the Police or Fire Departments any more than from the funds of the Street-Cleaning Department. They are in a different business entirely, and any departments is incongruous. The question is not what does somebody else get, but what should the what ones someony easy got, but answered by replying to another: What do the carriers earn? Last year the New York Post-Office paid the Government \$5,000,000 over all expenses. Now, what better use could be made of \$180,000 of this west amount than so pay an additional \$200 per annum to the 1,200 hard-working and trustworthy uarriers, who, with the poorty paid postal clerks, earn this amount for the Government. It is every man's duty to better his condition, and stop at nothing short of a salary of \$50,000, as President of these Thintes Extent of \$100,000, as

Description on Third Ave. But that don't settle the business. We cannot know that our children will not be dragged from us any moment by the Gerry Society at the instance of a spiteful and elanderous unighbor or avaricious officer of the law. Therefore we want this law changed. "What God has joined together let no man put assunder," applies just as much and more to the relation of parent and child as to man and wife. The breaking up of families was the worst feature of negro slavery. That is abolished, and I, for one, don't believe any human being has a right to separate the child from the parent, which is the greatest of all crusities.

Dangerous Cronsings on Third Ave.

To the Editor:

The Third arenue cahle-cars run so close to the cash of the constant it is very dangsrous and almost impossible to cross. I would suggest that they like all their cars together, making one-mile slong trains from City Hail to Harlem, and let people and come out at the Harlem end! They can truthfully say they have "come up on the cable road," and foot passengers can cross Third avenue in safety by stepping over the platforms.

A Novel Election Suggestion.

To the Editor:

Undoubtedly the fear of Tammany's continued success deterred many of our Brocklyn brethren from soting for Greater New York. Now that Gotham has "signed the pickips and joined the church" we believe the coy maiden would review her decision. I propose a plan that will not cost over 128, if anything, and will there exhibits the question of popular centiment. Let an empty super beredt, with a small, narroy attribute the place of the turning of the last Yunder of this manth at the Brocklyn and at the Arrel.
